ATHARVA MAHESH KATHALE

B.Sc Computer Science Student | Web Developer | Cloud Enthusiast

✉ atharvakathale1212@gmail.com | +91 8446006105 | Pune, Maharashtra, India
LinkedIn: Atharvakathale | GitHub: Atharva Kathale12

CAREER OBJECTIVE

Motivated B.Sc Computer Science student with hands-on experience in web development (PHP, HTML, CSS) and data analysis using Python. AWS Cloud Computing certified with a strong foundation in software engineering principles. Seeking an entry-level opportunity to apply technical skills, contribute meaningfully to real-world projects, and grow within a forward-thinking organisation.

EDUCATION

Degree / Board	Institution / University	Year	Result
B.Sc. Computer Science (Third Year – Pursuing)	Savitribai Phule Pune University	2023 – 2026	FY: 8.46 CGPA SY: 7.63 CGPA
HSC (12th Grade)	Maharashtra State Board, Pune	2023	59.00%
SSC (10th Grade)	Maharashtra State Board, Pune	2021	78.00%

CERTIFICATIONS & ACHIEVEMENTS

AWS Cloud Computing – Certified (Basic)
Issued by: Amazon Web Services
Cloud infrastructure, EC2, S3, IAM fundamentals

Marketing Certificate
Issued by: Government of India
Certified marketing programme accredited by the Government of India

PROJECTS

Online Voting System for College
Third Year Project | Technologies: PHP, HTML, CSS
- Designed and developed a secure web-based voting platform for college elections.
- Built dynamic front-end interfaces using HTML and CSS for an intuitive user experience.
- Implemented server-side logic with PHP to handle voter authentication and real-time vote tallying.
- Ensured data integrity through session management and input validation techniques.
- Deployed on a local server environment with MySQL database integration.

Student Performance Analysis using Python
Academic Project | Technologies: Python, Pandas, Matplotlib, NumPy
- Analysed student marks data using Pandas for cleaning and statistical processing.
- Visualised performance trends and insights using Matplotlib charts.
- Performed descriptive analysis to identify high-performing and at-risk students.
- Used CSV files as primary data sources for the pipeline.

Arduino Radar System
Second Year Project | Technologies: Arduino UNO, Ultrasonic Sensor (HC-SR04), Servo Motor, Embedded C
- Built a radar system for detecting nearby objects using an ultrasonic sensor on a servo motor.
- Implemented 15°–165° angle-based scanning to detect objects within a 2–40 cm range.
- Calculated object distance using the time-of-flight principle and displayed data via serial communication.

TECHNICAL SKILLS

Category	Skills

Programming Languages	Python (Basic), Java (Basic)
Web Technologies	HTML, CSS, PHP
Data Analysis	Pandas, NumPy, Matplotlib
Cloud	AWS (Certified – Basic)
Database	SQL (Basic)
Tools & IDEs	VS Code, MS Excel
Operating System	Windows

CORE COMPETENCIES

Problem Solving	**Quick Learner**	**Team Player**	**Adaptability**	**Communication**

LANGUAGES KNOWN

English | Hindi | Marathi

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief.
